Planning application for incinerator goes to appeal

Cllrs John Leach, John Keys and Pat Ali at the Beddington Lane site.

Development Control committee members recently received an application for a gasification plant to be erected at 79-85 Beddington Lane. Members of the committee were advised by Sutton Council Officers to accept the application and not to contest it.

At the meeting Cllr John Keys spoke on behalf of the residents regarding their concerns if the application were to be approved. Upon hearing the details of the application and Cllr John Keys recommendation, members of the Development Control committee voted to contest the application. Members and residents were told that the application would now be referred to the Planning Inspector who may overrule the decision and grant permission for the application.

Cllr John Keys said that he was delighted that the London Borough of Sutton would contest the appeal. "We will do everything we can to convince the planning inspector that this planning application should be refused."

Parking at the Meads

Residents at the Meads raised concerns about the problems with parking to the Beddington North Councillors. Councillor Ali took up the issue at the last Beddington and Wallington local committee meeting.

Residents from the Meads attended and presented their concerns to the members of the committee. Over 50 signatures had been gathered and the committee heard about problems residents faced every day and the possible solutions. At the meeting a temporary traffic management order was proposed which could have eased the situation. This proposal was rejected by Sutton parking officers. Councillor Ali has been working with Parking officers on a number of plans. Residents will be consulted on the proposals in the next few weeks.
