Save Train Services to Central London

Many commuters from Sutton use First Capital Connect's Thameslink service to get to work in the City and central London every day and other local people use it to catch the Eurostar and other rail services at St Pancras International and Kings Cross, as well as getting to Luton Airport. However the future of the line is in doubt after Network Rail said it will terminate services at Blackfriars after the Thameslink upgrade is completed in 2016.

Show your support for this campaign and help save train services to central London.
